TERMS OF SALE

on Chrysanthemum Varieties in this Catalog

Fifty cuttings of a variety is the minimum that can be supplied. More than fifty must be in multiples of fifty. There is no restriction on the size of the total order. Unrooted cuttings can be furnished at \$1.00 per 100 less than rooted cuttings.

Quantity discounts, other than those listed, cannot be allowed regardless of size of order. Shipments will be sent Railway Express unless otherwise instructed.

Our growers suggest — for the best service and in order to assure delivery of mum cuttings when you want them, it is necessary to have your order at least six months in advance of shipping date. Orders on shorter notice will receive the best possible attention.

All cuttings will be taken from plants that apparently were free of "stunt" the previous season. We cannot be responsible for any cuttings where this difficulty may develop after planting.

Hardy varieties for the garden, in a wide range of colors will be listed in our general catalog. Varieties listed in this catalog are primarily for cut flower production.
